This is a long awaited firmware update which brings a couple of new features to the table for music lovers. One of the most anticipated features is the new 7 inch Apple iPod touch with the 5th generation iPod touch and iPhone 4c getting updated with iTunes 11. It is very easy to see why the new iPod touch is seeing the most attention from Apple fans – The new 7 inch iPod touch comes with Retina Display, can hold more than 10 hours of battery life, and can be personalized with a range of colors. The 5th generation iPod touch comes with a built-in camera 82157476af
